CONTROL CAMERA

NEW CONTROL CAMERA FOR WHEEL ALIGNMENT SYSTEMS

We are glad to inform you that the new control camera kit is available for sale. The control camera in conjunction with calibration fixtures, sold separately, allows a Hofmann wheel aligner to support the calibration of driver assist systems for VAG vehicles.

KEY BENEFITS

- The control camera kit is for customers that would like to add the capability to calibrate driver assist and collision avoidance systems in VAG group vehicles to their existing *Hofmann* wheel aligners
- Calibration can be done as part of an alignment or independently using the wheel alignment software
- User is automatically notified in the software if calibration of these systems may be required for a vehicle in the alignment work flow
- The wheel aligner provides fully guided procedures for sensor calibration

PRODUCT DESCRIPTION

The *Hofmann* control camera kit is an accessory for *Hofmann* branded wheel aligners. The camera works in conjunction with a VAS6430 target assembly and a VAS6150 scan tool to calibrate driver assist and collision avoidance systems for VAG vehicles. The control camera is mounted to the side of the VAS6430 target assembly and is used to correctly position the target assembly with relationship to the car. Automatic notification of required sensor calibration and guided instruction of the calibrated process are provided in the wheel alignment system as part of the standard wheel alignment process.

PART NUMBERS

Control Camera Kit EAK0334J15A

REQUIRED ACCESSORIES (SOLD SEPARATELY)

Calibration board VAS6430

Scan tool VAS6150

COMPATIBLE MODELS*

geoliner 790 AC400	geoliner 790 AC100
geoliner 680 XD AC400	geoliner 680 XD AC100
geoliner 670 XD AC400	geoliner 670 XD AC100

KIT INCLUDES

Control Camera	Pro42 7.5.8 software update
Cables	Power supply kit to power the control camera

SUPPORTED VEHICLE SENSOR SYSTEMS

ADS	Adaptive Steering
ACC	Adaptive Cruise Control
LDW/FK	Lane Departure Warning/Front Camera
Night Vision	

*Pro42 software required
